ADORE in your context

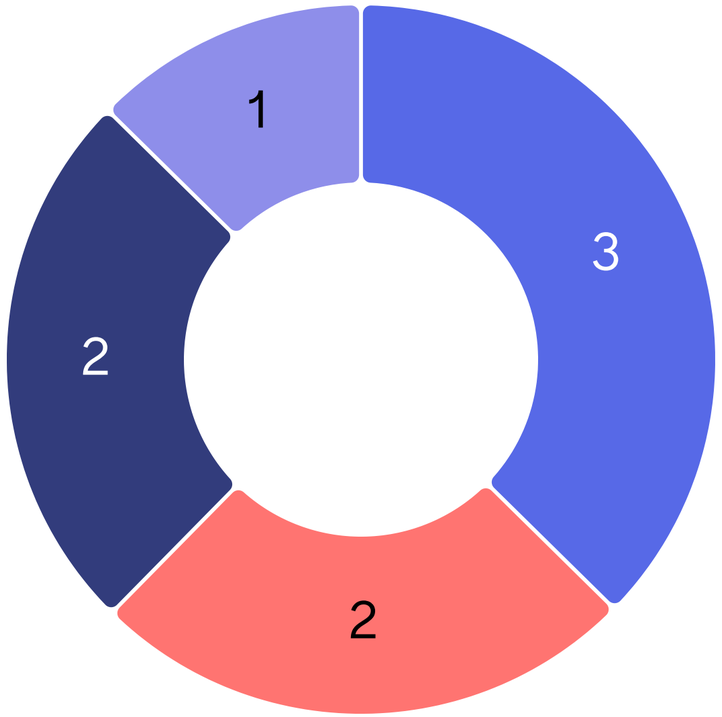

0

What are the challenges that you see for your organization?

2	The benefits aren't clear
1	Not enough support
1	ADORE in conflict with existing policies
2	Fragmented landscape
7	Other

What would you need to overcome these challenges?

3	More involvement from colleagues
2	Demonstration of benefits
2	Resolving conflicts between ADORE and existing policies
1	Getting the community together
0	Other

Menti

Is there something ADORE should absolutely do that would make signing a no brainer?

Make it a funding requirement

Creating some enthusiasm/momentum at a senior leadership level

Case studies of similar organisations (peer pressure!)

Free cake with the signature 😉

Alignment Toolkit - Make it easier to show ADORE already aligns with existing policies.

Lobby Science Europe to lobby for it

Adore commitment, component of funding requirement.

From my perspective, the opportunities clearly outweigh the risks. Make this clear to the decision makers.

Menti

Is there something ADORE should absolutely do that would make signing a no brainer?

Some elevstor pitch presentation on benefits?

more publicity with decision makers

Potential for levels of organisation commitment. Supporter, implementer.
